#### **Halloween in Italy—**

Italy imported this festival from the USA through films, TV and pop culture. It all started as a way to entertain children with the famous trick-or-treat routine. Certainly, *Carnevale* is still superior, but tendencies are looking undoubtedly more and more in favor to Halloween. This is throwing some controversy into the laps of religious authorities in Italy. Halloween is starting to develop a superior influence over Italy's **All Saints and All Souls Day**, on November 1<sup>st</sup> and 2<sup>nd</sup> respectively, and many worry about the fact that it may turn what is supposed to be a time to remember our dead with love and cherish, into yet another occasion to party.

However, if we look at the true origins and the true meaning of Halloween, we'll see that they're not that different from what Italians celebrate on All Saints and All Souls Day. If, from a commercial point of view, Halloween is an All-American product, its spirit is rooted in antiquity and comes very much from Europe. Halloween, known by the Celts as **Samhain**, was originally nothing more than a day to remember and honor the **souls of the dead**. It's been here since before Christ, witness to the wholly human necessity to remember and love those who are no longer physically with us. Celebrations of Halloween were popular in Ireland and **Scotland** and when people from these countries emigrated to the US in the 19<sup>th</sup> century, they brought this custom along. America then made of Halloween what we know today, whereas Europe remained attached to the more spiritually oriented celebrations of All Saints and All Souls Day.

## Christopher Columbus—Italian Explorer

*Courtesy of : World History Encyclopedia*

Christopher Columbus (1451-1506, also known as Cristoffa Corombo in Ligurian and Cristoforo Colombo in Italian) was a Genoese explorer (identified as Italian) who became famous in his own time as the man who discovered the New World and, since the 19th century CE, is credited with the discovery of North America, specifically the region comprising the United States.

Actually, owing to the early 16th-century popularity of the published letters of the Florentine explorer Amerigo Vespucci (l. 1454-1512), detailing his three voyages to the “New World” between 1497-1504, the discovery of the Americas has been credited to him on world maps beginning in 1506 which is why the continents bear the feminine version of his name. Columbus made four voyages to the area of the Caribbean, exploring Cuba, Central America, South America, Puerto Rico, the Virgin Islands, the Dominican Republic, Haiti, the islands of the Bahamas, and others between 1492-1504:

- First Voyage: 1492-1493
- Second Voyage: 1493-1496
- Third Voyage: 1498-1500
- Fourth Voyage: 1502-1504

Columbus never set out to discover a New World, but to find a western sea route to the Far East to facilitate [trade](#) after the land route of the [Silk Road](#), between [Europe](#) and the East, had been closed by the [Ottoman Empire](#) in 1453, initiating the so-called Age of Exploration (also known as the Age of Discovery) which launched many European sea expeditions. Columbus' first voyage brought him to one of the islands of the Bahamas on 12 October 1492, which he claimed in the name of the monarchs Ferdinand II of Aragon and his wife Isabella of Castile of Spain. His next three voyages were made to consolidate Spain's control of the region and establish colonies.

Columbus is acknowledged as the first to establish contact between Europe and the Americas known as the [Columbian Exchange](#) whereby people, plants, technology, and other aspects of [culture](#) passed between the Old and the New World, transforming both and establishing the foundation for the modern age.

Although modern-day detractors of Columbus cite the Norse community in Newfoundland as the first “discovery of America”, the [Vikings](#) under [Leif Erikson](#), who landed in North America centuries before Columbus, had no effect on the indigenous population and their return to Greenland afterwards inspired no further expeditions.

Columbus' journeys, by contrast, opened the way for later European expeditions, but he himself never claimed to have discovered America. The story of his “discovery of America” was established and first celebrated in *A History of the Life and Voyages of Christopher Columbus* by the American author [Washington Irving](#) (l. 1783-1859 CE) published in 1828 CE and this narrative (largely fictional) would eventually contribute to the establishment of Columbus Day as a United States' holiday in 1906 CE, observed up through the present.
